Proposal 4: Determination of Remuneration for Granting Restricted Stock to Directors

At the 23rd Ordinary General Meeting of Shareholders held on March 28, 2018, the amount of remuneration for directors of the Company was approved to be no more than 300 million yen per year (which, however, does not include the portion of employee's salary for Directors who concurrently serve as employees).

As part of the overall review of the Company's officer remuneration system, the Company requests your approval of new allotment of restricted stock within the scope of the aforementioned remuneration limit, for the purpose of providing an incentive for the Company's Directors (excluding Outside Directors; hereinafter "Eligible Directors") to continuously improve the Company's corporate value, and promoting further shared value with its shareholders. The current number of Directors is four (4) (including two (2) Outside Directors), and if Proposal 2 "Election of Five (5) Directors" is approved as originally proposed, the number of Directors will be five (5) (including two (2) Outside Directors).

The details of the restricted stock to be granted to Eligible Directors are as follows.

1. Number and amount of restricted stock to be granted to Eligible Directors

The total number of shares of common stock of the Company to be issued or disposed of for the allocation of the Restricted Stock shall be no more than 50,000 shares per year (provided, however, that in the event of a stock split (including the allotment of Company's common stock without contribution) or reverse stock split of the common stock of the Company with an effective date on or after the resolution date of this Annual General Meeting of Shareholders, the said total number of shares may be adjusted within a reasonable scope as necessary, according to the ratio of such stock split or reverse stock split on and after the effective date) in the amount of no more than 50 million yen per year (excluding the portion of employee's salary for Directors who concurrently serve as employees). As described in 2 below, no monetary payment is required upon granting the Restricted Stock. However, the amount of remuneration for the Eligible Directors shall be decided by the Board of Directors based on the closing price of the Company's common stock on the Tokyo Stock Exchange on the business day prior to the date of each resolution of the Board of Directors per share (or, in the event of no trading on that day, the closing price on the most recent trading day immediately prior thereto), within a scope not particularly advantageous to the Eligible Directors who are to receive the common stock. In addition, the specific timing of payment and allocation to each of the Eligible Directors shall be determined by the Board of Directors after full consideration is given to various matters, such as the degree of contribution to business performance in the previous fiscal year.

2. Matters concerning payment associated with issuance of restricted stock or disposal of treasury stock

The issuance of the Restricted Stock or the disposal of treasury stock is for the purpose of issuing shares for subscription as compensation for the Company's Directors, and no payment of money is required in exchange for the subscription shares.

3. Matters concerning restricted stock to be granted to Eligible Directors

The Company shall conclude a Restricted Stock Allotment Agreement (the "Allotment Agreement") with the Eligible Directors, which includes the following terms and conditions.

(1) Transfer Restriction Period

Eligible Directors shall not transfer, create a security interest, or otherwise dispose of the Company's common stock allotted under the Allotment Agreement (the "Allotted Shares") for a period determined by the Board of Directors of the Company of no more than ten (10) years from the date of allotment under the Allotment Agreement (the "Transfer Restriction Period") (the "Transfer Restrictions").

(2) Treatment at the time of resignation or retirement

If an Eligible Director resigns or retires from his/her position as a Director of the Company or any other position determined by the Board of Directors of the Company before the expiration of the Transfer Restriction Period, the Company shall automatically acquire the Allotted Shares without consideration, except when such resignation or retirement is due to death, expiration of the term of office, mandatory retirement age, or other reasons deemed justifiable by the Board of Directors of the Company.

(3) Lifting of Transfer Restrictions

Notwithstanding the provisions of (1) above, the Company shall lift the Transfer Restrictions on all of the Allotted Shares at the time of expiration of the Transfer Restriction Period, on the condition that the Eligible Director has continued to remain in the position specified in (2) above during the Transfer Restriction Period. However, if the Eligible Director resigns or retires from his/her position specified in (2) above due to death, expiration of term of office, mandatory retirement age or other reasons deemed justifiable by the Board of Directors of the Company specified in (2) above before the expiration of the Transfer Restriction Period, the number of the Allotted Shares for which the Transfer Restrictions are to be lifted and the timing at which the Transfer Restrictions are to be lifted shall be reasonably adjusted, as necessary. In addition, the Company shall automatically acquire without consideration the Allotted Shares for which the Transfer Restrictions have not been lifted immediately after the lifting of the Transfer Restrictions in accordance with the provisions above.

(4) Treatment upon organizational restructuring, etc.

Notwithstanding the provisions of (1) above, if, during the Transfer Restriction Period, a matter regarding a merger agreement under which the Company becomes the dissolving company, a share exchange agreement or share transfer plan under which the Company becomes a wholly-owned subsidiary of another company, or any other organizational restructuring is approved at a General Meeting of Shareholders of the Company (or by the Board of Directors of the Company if approval of such organizational restructuring at the General Meeting of Shareholders of the Company is not required), the Company shall, by a resolution of the Board of Directors of the Company, lift the Transfer Restrictions for the number of Allotted Shares reasonably determined by taking into consideration the period from the commencement date of the Transfer Restriction Period to the approval date of such organizational restructuring, prior to the effective date of such organizational restructuring. In addition, in the case specified above, the Company shall automatically acquire without consideration the Allotted Shares for which the Transfer Restrictions have not been lifted immediately after the lifting of the Transfer Restrictions.

(5) Other matters

Other matters related to the Allotment Agreement shall be determined by the Board of Directors of the Company.

4. Reason why the grant of Restricted Stock is reasonable

The Plan is designed to grant the Restricted Stock to Directors for the purpose of providing an incentive for the Company's Directors to continuously improve the Company's corporate value, and promoting further shared value with its shareholders.

At the Board of Directors meeting held on February 12, 2021, the Company established a policy for determining compensation, etc., for each individual Director. An overview of the policy is as described on page 23 of the Business Report. The grant of the Restricted Stock based on this proposal is consistent with such policy, and if this proposal is approved, the Company has no intention to change such policy. In addition, the amount of the Restricted Stock valued at the market price on the business day prior to the date of the resolution of the Board of Directors pertaining to the allotment (or, in the event of no trading on that day, the most recent trading day immediately prior thereto) shall not exceed the maximum annual amount described in 1 above, and the shareholding ratio in the event of the issuance of the maximum number of the Restricted Stock will be 0.39% of the total number of shares issued hence the dilution rate is minimal. Therefore, the Company considers that the grant of the Restricted Stock is reasonable.
