1. Qualitative Information Regarding Non-Consolidated Quarterly Business Results

(1) Qualitative Information Regarding Non-Consolidated Operating Results

During the first quarter (the three-month period from January 1, 2013 to March 31, 2013) of fiscal 2013 (the fiscal year ending December 31, 2013), the Japanese economy witnessed an upswing in share prices and a downturn in the value of the yen. This largely reflected positive expectations toward the wide-ranging pump-priming measures announced and implemented by the government as well as steps to ease monetary conditions. Despite this scenario and signs of an economic pickup, any impact on the real economy remains at an early stage. Taking these factors into consideration, uncertainty continues to cloud future operating conditions. In the real estate industry, a key area in which the Company operates, operating conditions are being impacted by the low interest rate environment and measures by the government to stimulate the economy. While there are signs of a partial recovery, conditions in general remain shrouded in uncertainty. Under these circumstances, Arealink Co., Ltd. maintained its focus on promoting a stock-type business model principally through its mainstay property management service activities.

In its Property Management Service business, the Company continued to adopt a stringent approach toward the selection of regions with respect to the opening of bases of operations taking into consideration door-to-door marketing concerns in its principal storage business activities. By increasing the number of operating facilities successful steps were taken to boost sales. During the period under review, Arealink held onsite customer tours of its new operating bases in order to lift the pace of operations and use. In addition to this and other marketing activities that were deeply rooted in each local community, the Company placed considerable emphasis on the upgrade and maintenance of existing facilities based on feedback and recommendations received from customers through comment cards. These cards continue to form the basis for ongoing improvements in usability and convenience. In its Asset business, Arealink acquired income-generating properties to further bolster its long-term holdings. This initiative helped to boost revenues while further fortifying the earnings base of the Company's stock-type business. Accounting for each of the aforementioned factors, net sales for the first quarter of fiscal 2013 in this segment amounted to $\frac{42,502}{100}$ million.

Turning to the Property Revitalization & Liquidation Service business, Arealink acquired properties for sale throughout the period under review focusing mainly on such sales classifications as retail facilities, offices, and residential condominiums. During the first quarter of fiscal 2013, trends in sales remained steady. As a result, sales in this segment totaled ¥889 million.

Drawing on its operating performance in principal areas of activity, Arealink reported net sales of $\frac{3}{3},392$ million for the first quarter of the fiscal year under review, a 47.5% increase compared with the corresponding period of the previous fiscal year. From a profit perspective, operating income climbed 55.1% year on year to $\frac{3}{3},354$ million. Ordinary income was $\frac{1}{3},346$ million, 76.5% higher than the level recorded in the corresponding period of the previous fiscal year. Net income surged 88.1% year on year to $\frac{1}{2},294$ million.

(2) Qualitative Information Regarding Non-Consolidated Financial Position

Total assets as of the end of the first quarter of fiscal 2013 stood at $\frac{20,561}{100}$ million, up $\frac{1,948}{100}$ million compared with the end of the previous fiscal year. This principal movements were land and buildings, which climbed $\frac{1,749}{100}$ million and $\frac{18841}{100}$ million, respectively. At the same time, cash and deposits decreased $\frac{1849}{100}$ million.

Total liabilities as of March 31, 2013 came to \$9,329 million, an increase of \$1,651 million compared with the previous fiscal year-end. The major components were long-term loans payable, short-term loans payable, and other non-current liabilities, which rose \$1,270 million, \$180 million, and \$103 million, respectively.

Total net assets totaled \$11,231 million as of the end of the first quarter of fiscal 2013, \$296 million higher compared with the balance as of December 31, 2012. The main movement was in retained earnings, which increased \$294 million. Accounting for each of these movement, the net assets to total assets ratio stood at 54.6%.

(3) Qualitative Information Regarding Forecasts of Non-Consolidated Business Results

Looking at business results forecasts for the interim and full fiscal year periods of the fiscal year ending December 31, 2013, results in each business continue to progress steadily. As a result, the business results forecasts announced together with the Company's Financial Results Report for the Fiscal 2013 dated February 14, 2013 remain unchanged.

Turning to cash dividends for the fiscal year ending December 31, 2013, Arealink expects to resume payment with a forecast annual cash dividend of ¥2.50 per share. This forecast takes into account

the Company's basic policy regarding the return of profits to shareholders as well as current operating results forecasts. Arealink does not intend to pay an interim cash dividend.

(4) Segment and Other Information

1) Overview of Reportable Segments

The reportable segments of the Company are components for which separate financial information is available and whose operating results are regularly reviewed by the Company's Board of Directors when making decision about the allocation of management resources and assessing performance.

Arealink is primarily engages in Property Management Service and Property Revitalization & Liquidation Service business activities. In its Property Management Service business, the Company leases land, vacant facilities, and other property assets while also acquiring, holding, and operating land, buildings, and other property assets. In addition, Arealink receives orders and provides for the installation and construction of containers and trunk rooms in accordance with the needs of land and building property owners. In the Property Revitalization & Liquidation Service business, the Company refurbishes existing real estate properties held for the purpose of adding value and increasing operating efficiency. These properties are then sold to investors and other interested parties.
