## 1. Qualitative Information Regarding Non-Consolidated Quarterly Business Results

### (1) Explanation of Business Results

During the first quarter period (January 1, 2019 to March 31, 2019) of fiscal 2019 (ending December 31, 2019), the Japanese economy maintained a tone of moderate recovery against a backdrop of improving employment conditions and an increase in capital investment. In the global economy, considering prolonged concerns such as U.S.-China trade friction and Brexit, and the downward revision in the World Economic Outlook from the International Monetary Fund (IMF), the outlook remains unclear and careful attention is warranted.

In the real estate industry, Arealink's principal business field, despite expectations that low interest rate policy would provide support, factors such as the distrust of the industry resulting from instances of fraudulent loans and substandard construction, as well as the consumption tax increase scheduled for October 2019, have led to a situation of uncertainty regarding the future direction of the market.

#### Property Management Service

In the mainstay Property Management Service business, to strengthen the "stock-type" (service oriented) business model, Arealink focused on improving earnings for existing properties, and differentiating itself from the competition. Along with increased brand recognition from the ongoing collaboration with Sanrio Company's "Hello Kitty" character, we also worked to enhance convenience for users by strengthening service aspects, including the "seven service benefits" of Hello Storage, and the development of the Hello Storage app allowing contract holders to use a smartphone to access the entrances to self-storage facilities, and introducing the system at select locations. For self-storage units with accompanying land (asset-type indoor storage), considering future market conditions for real estate and finance, Arealink sold certain properties in bulk, leading to a decline in the profit ratio. As a result, net sales in the Property Management Service segment amounted to ¥7,270 million (up 24.9% from the same period of the previous fiscal year), with operating income of ¥826 million (down 3.1%).

#### Property Revitalization & Liquidation Service

Arealink focused on the land rights business, which is less susceptible to real estate market conditions, buying and selling land rights. We also completed the sale of held properties switched to real estate held for resale at the end of the previous fiscal year, which made a significant contribution to increasing earnings. As a result, net sales in the Property Revitalization & Liquidation Service segment amounted to ¥2,363 million (up 248.2% from the same period of the previous fiscal year), with operating income of ¥777 million (up 662.9%).

As a result, net sales for the first quarter period of fiscal 2019 amounted to ¥9,634 million (an increase of 48.3% from the same period of the previous fiscal year), with operating income of ¥1,278 million (an increase of 103.1%), ordinary income of ¥1,177 million (an increase of 88.9%), and net income of ¥801 million (an increase of 89.0%).

### (2) Explanation of Financial Position

Total assets as of the end of the first quarter period (March 31, 2019) stood at ¥41,650 million, an increase of ¥3,787 million compared with the end of the previous fiscal year (December 31, 2018). The main factors were increases of ¥2,997 million in cash and deposits; and ¥2,508 million in lease assets; along with decreases of ¥1,768 million in real estate for sale; and ¥940 million in real estate for sale in process.

Total liabilities amounted to ¥22,676 million, an increase of ¥3,564 million compared with the end of the previous fiscal year. The main factors were increases of ¥2,236 million in long-term lease obligations; and ¥2,196 million in long-term unearned revenue; along with decreases of ¥1,029 million in short-term loans payable; and ¥878 million in long-term loans payable; and ¥103 million in bonds payable.

Total net assets amounted to ¥18,973 million, an increase of ¥223 million compared with the end of the previous fiscal year. The main factor was a ¥220 million increase in retained earnings (comprising mainly an ¥801 million increase from net income, and a ¥581 million decrease from dividend payments). As a result, the equity ratio was 45.6%.

**(3) Explanation of Results Forecasts and Other Future Predictions**

For the second quarter cumulative period and full fiscal year period of the fiscal year ending December 31, 2019, the Company is revising upward its forecasts as announced in “Notice Concerning Revisions to Earnings Forecasts” dated April 23, 2019.

Of note, regarding dividends for the fiscal year ending December 31, 2019, based on its basic policy and current earnings forecasts, the Company plans to pay an annual dividend of ¥40.00 per share. There are no plans for an interim dividend payment.

**(Additional Information)**

From the first period of the subject fiscal year, the Company has applied "Partial Amendments to Accounting Standard for Tax Effect Accounting" (ASBJ Statement No. 28, February 16, 2018). Deferred tax assets are shown in "Investments and other assets," and deferred tax liabilities are shown in "Noncurrent liabilities."

**(Segment and Other Information)**

1) Overview of Reportable Segments

The reportable segments of the Company are components for which separate financial information is available and whose operating results are regularly reviewed by the Company's Board of Directors when making decision about the allocation of management resources and assessing performance.

Arealink is primarily engaged in Property Management Service and Property Revitalization & Liquidation Service business activities. In its Property Management Service business, the Company leases land, vacant facilities, and other property assets while also acquiring, holding, and operating land, buildings, and other property assets. In addition, Arealink receives orders and provides for the installation and construction of containers and storage rooms in accordance with the needs of land and building property owners. In the Property Revitalization & Liquidation Service business, the Company refurbishes existing real estate properties held for the purpose of adding value and increasing operating efficiency. These properties are then sold to investors and other interested parties. In addition, the Company resolves problems for both landowners and leaseholders through the buying and selling of leaseholds and limited land rights where the rights interests are complicated.
